## **RESEARCH SPECIALTIES / CAREER:**

### **Summary Statement:**

I have written a thesis on “Evaluation of Secretory Otitis media with adenoids” This was accepted by university of Kashmir and was awarded **Master’s degree** in Surgery in 1980-1984

Supervisor: Prof M. Maqbool

I have worked on a research project on “Otitis media with effusion in pacific Island family children” Work published in different international journals

Co-researchers: Prof P. A. Silva, Prof Janice Patterson, Prof S Purdy

I have been involved in Middle ear disease research- in South Auckland- CMDHB Auckland NZ

Co-researchers: Prof R Morton. Wouter Ten Cate

I have been involved in Otitis media with effusion, (effect of immunisation) research Multicenter research. (Starship, Counties Manukau and Christchurch Hospitals). (Funded by GSK)

Co-researchers: Dr. Nikki Mills, Dr. Melanie Souter

Involved in Pacific Island Family (PIF) research. Children of Pacific island family decent are being evaluated for middle ear disease and its impact on different aspects of life and learning. A project that has been in progress for last 18 years- children born in 2000 (# 1300) of PIF origin are followed since their birth and evaluated on regular basis. It has already produced some interesting results and papers that are published in international literature.

Done in collaboration with Auckland university audiology department and AUT research team. (Public Health)

Co-researchers: Prof Suzane Purdy (Auckland University), Janice Paterson (AUT)

Outcomes in Sialendoscopy- GBI evaluations- CMDHB

Co-researcher: Prof Randall Morton,

Principal investigator in “Outcomes in Endoscopic Sinus Surgery/ Balloon sinuplasty SNOT-20 and GBI evaluation.

Juvenile Recurrent Parotitis; Outcomes after Sialendoscopy

PhD thesis for Dr Sandro Leite

I am supervisor from New Zealand for PhD scholar Sandro Leite in University of Brazil working on sialendoscopy in salivary diseases; Data collection done from NZ.
